Re: APPLICATION FOR PUBLIC HEARING

Hosston (Travis Peak) Formation, SLIGO FIELD, Bossier  
Parish, Louisiana.

Dear Sir:

GREYSTONE PETROLEUM, L.L.C. ("Applicant"), hereby respectfully applies for a public hearing to consider evidence relative to the issuance of Orders pertaining to the following matters relating to the Hosston (Travis Peak) Formation in the Sligo Field, Bossier Parish, Louisiana:

1. To permit Applicant to drill, designate and utilize its McGuire 13 No. 1 Well, at the location shown on the attached plat, and as an additional alternate unit well for HOSS TP SUP, in exception to the well location provisions of Office of Conservation Order No. 8-B, effective September 1, 1956.
2. To permit Applicant to drill, designate and utilize its Roos No. 14-A Well, at the location shown on the attached plat, as an additional alternate unit well for HOSS TP SUQ.
3. To find that drilling, designation and use of the proposed alternate unit wells is necessary to efficiently and economically drain a portion of the Hosston (Travis Peak) Formation underlying the units on which these wells are proposed to be drilled which cannot be efficiently and economically drained by any existing well within these units.
4. To permit the Operator of HOSS TP SUP and of HOSS TP SUQ to produce the allowables assigned to these units from either the unit well, any alternate unit well, or from any combination of such wells, at the option of the Operator.
5. To consider such other matters as may be appropriate and justified by the evidence presented at the hearing.

The Hosston (Travis Peak) Formation in the Sligo Field, Bossier Parish, Louisiana, was defined in Office of Conservation Order No. 8-B, effective September 1, 1956.
